- Advanced Computer Security Professional Certificate, Stanford University (2012) – This credential requires the completion of no less than six Computer Security courses at Stanford and passing an exam for each course.
- Computer Forensics Certificate, George Mason University (2010)
- SANS 560 (Network Penetration Testing and Ethical Hacking), SANS Institute (2012)

ADDITIONAL INDUSTRY COMPUTER FORENSICS AND CYBER SECURITY CERTIFICATIONS

- CISSP - Certified Information Systems Security Professional (Analyst #00026589)
- Certified Computer Examiner (#1405) - The International Society of Forensic Computer Examiners
- GPEN - GIAC Certified Network Penetration Tester (Analyst #8073)
- GCIH - GIAC Certified Incident Handler (Analyst #22123)
- GSLC - GIAC Security Leadership (Analyst # 8115)
- CEH - Certified Ethical Hacker
- Certified Computer Examiner (CCE) Certification

WORK EXPERIENCE

VP - Information Security Consulting and Computer Forensics – AVM Technology, LLC 2009-Present
Specialized in IT consulting, computer forensics and the acquisition and analysis of digital evidence, data

recovery, password and e-mail recovery. Consult with legal counsel regarding digital evidence during the discovery and trial phases of civil and criminal trials. Assist clients in identifying, neutralizing, and investigating computer and network attacks. Assist businesses and law firms in the forensic investigation of computer security incidents, including intrusion and employee misconduct. Assist counsel with the identification and preparation of evidence for trial purposes. Admitted as an expert witness in Computer Forensics and Information Technology in various Circuit Courts in Virginia.

Member – Rivera Law Group (Internet and Computer Technical/Legal Consulting) 2007-2011
Advised clients and litigated cases in the areas of Internet Law, Cyber Crime Defense, and Intellectual Property. Obtained the first defense jury verdict in a Federal case involving Internet copyright infringement / music piracy. Utilized IT and computer forensics skills to deconstruct the Department of Justice's allegations and electronic evidence against the client. Regularly assisted attorneys as computer/technical consultant in cases involving Information Security aspects, including hacking and computer abuse.

Trial Attorney 2005-2007
The Ewing Law Firm, P.C., Chesapeake, Virginia
Advised clients and litigated cases in the areas of Technology Law and Criminal Law. Presented cases at virtually all levels of the Virginia State and Federal Courts.

IT Programmer and Electronic Evidence Legal Consultant 2003-2005
Developed computer and Internet applications for clients including database development and program code generation. Consulted with attorneys and law firms in regarding the technical aspects of legal matters involving Information technology and network security.

Electronics and IT Engineer 2000- 2003
Atlantic Division, U.S. Navy, Norfolk, Virginia
In charge of engineering projects and U.S. Navy contracts valued at over \$20 million. Provided engineering and technical expertise. Served as lead engineer for the construction of the Homeland Security Headquarters, a state-of-the art Information Technology facility, and one of the highest priority projects in the Department of Defense after September 11, 2001. Obtained contracting authorization under the Defense Acquisition Workforce Improvement Act (DAWIA). This position required obtaining and maintaining a Top Secret Clearance with NATO access.

Engineering Systems Officer (Cryptology Training Center) 1998 - 2000
Naval Technical Training Center/Naval Security Group Activity, Pensacola, Florida
Provided engineering systems, Information Technology, and technical support to a critical Naval Cryptology installation. Supervised a staff of 32 technicians, including IT personnel. In charge of contracting, technical verification, and management of several large mission-critical projects. This position required obtaining and maintaining a Top Secret Clearance with NATO access.

Computer Programmer/Human Computer Interaction Researcher 1996 - 1997
University of Puerto Rico, Electrical and Computer Engineering Department
Member of a team that developed a comprehensive secured software and database application to automate the operation of a local hospital while utilizing secure code programming techniques.

Engineering Technician/Computer Programmer 1995 - 1996
Engineering Systems Support and Automation Section, Abbott Laboratories, Barceloneta, Puerto Rico
Tasked with performing field instrumentation projects, developing computer software, and programming the chemical plant's distributed control system.
